INTRODUCTION

The Journal of Financial Reporting (JFR) is the academic journal of the Financial Accounting and Reporting Section of the American Accounting Association. JFR’s target audience is financial reporting researchers. JFR will publish two regular issues each year and will also occasionally publish themed issues dedicated to studies that launch a new question or move the literature forward in an existing area.

JFR is open to research on a broad spectrum of financial reporting issues related to the production, dissemination, and analysis of information produced by a firm’s financial accounting and reporting system. Appropriate topics include accounting standard setting, the production and dissemination of accounting information, the relation between financial information and firm policies such as compensation and corporate governance, the role of financial intermediaries, and analysis by decision-makers such as equity investors, creditors, and analysts.

JFR welcomes research that employs empirical archival, analytical, and experimental methods, and especially encourages less traditional approaches such as field studies, small sample studies, and analysis of survey data. JFR also especially encourages “innovative” research, defined as research that examines a novel question or develops new theory or evidence that challenges current paradigms, or research that reconciles, confirms, or refutes currently mixed or questionable results.

JFR has a wide-ranging definition of research that constitutes a high-quality contribution to a body of scholarly work and JFR is willing to give weight to innovation and thought-provoking ideas when evaluating papers. At the same time, JFR maintains the highest standards for execution quality.
EDITORS AND EDITORIAL BOARD

Co-Editors

Anne Beatty, Ph.D.
The Ohio State University
Anne Beatty is Professor, Accounting & Management Information Systems at Ohio State University. Professor Beatty’s research focuses on the economic effects of accounting. She is especially interested in the importance of accounting in debt contracting and in bank capital regulation. She serves as an Associate Editor of the Journal of Accounting & Economics and as a member of the editorial boards of The Accounting Review, Journal of Accounting Research, Review of Accounting Studies, and Journal of Business Finance and Accounting. She is the recipient of a Sloan Foundation Industry Center Fellowship and a member of the Wharton Financial Institutions Center. She has served as the president of the American Accounting Association Financial Reporting Section and is a recipient of its Dissertation Supervision award.

Robert J. Bloomfield, Ph.D.
Cornell University
Since coming to the Johnson School and Cornell University in 1991, Professor Bloomfield has used laboratory experiments to study financial markets and investor behavior, but has also published in all major business disciplines, including finance, accounting, marketing, organization behavior, and operations research. Professor Bloomfield served as Director of the Financial Accounting Standards Research Initiative (FASRI), an activity of the Financial Accounting Standards Board. As the Johnson School’s Faculty Director of eLearning, Professor Bloomfield oversees the development of online courses and helps faculty make best use of technology in traditional courses. He is the author of the award-winning ebook, What Counts and What Gets Counted, which can be downloaded free online, and has used the book as the basis for online courses offered through eCornell, as well as award-winning teaching in Johnson’s Executive MBA programs.

Richard A. Lambert, Ph.D.
University of Pennsylvania
Professor Lambert’s research examines topics within financial and managerial accounting. In particular, he explores how information is related to the cost of capital in firms and how firms use information for performance evaluation. His articles have appeared in The Accounting Review, Journal of Accounting Research, Journal of Accounting and Economics, Rand Journal of Economics, and Strategic Management Journal. He teaches an elective course in financial reporting in both the MBA and WEMBA programs, the core financial accounting class in the WEMBA program, and seminars in the doctoral program. He also teaches in various executive education programs. He is the recipient of several teaching awards. Professor Lambert previously taught at the Kellogg School at Northwestern University and the Graduate School of Business at Stanford University.

(a) Includes submissions in the editor’s hands, but excludes revise and resubmit editorial decisions in authors’ hands.
(b) New manuscripts, excluding resubmissions.
(c) Resubmissions of previous revise and resubmit editor decisions.
(d) Evaluation means all actions by referees, associate editor, and/or editor are complete and the manuscript has been returned to the authors.
(e) Manuscripts processed with a decision returned to the author, including manuscripts returned by the editor without involving referees.
(f) Submissions where a decision has not yet been sent to the author (note that in-process excludes revise and resubmit editorial decisions that are now in the authors’ hands).

Table 2 shows acceptance and rejection rates for the period from 2015 to 2017.

<table>
<thead>
